THE SAFETY AND SECURITY DIMENSION OF SPACE VI: R&D, capability development, capacity-building

Thursday, 25th January 2024, 10.00h - 11.30h

The session is going to debate space and security policy as well as space and security capability developments. Various topics will be discussed such as space for safety, security, and defence, R&D, capability developments, and skills building for the sector. Synergies with the defence sector, dual-use, partnerships and cross-fertilization will be discussed by the panel. Previous sessions are documented on the NEREUS-website: <https://www.nereus-regions.eu/category/events/defence/>

Programme Thursday, 25th January 2024, 10.00h - 11.30h (moderated discussion):

Welcome by the NEREUS Secretary-General Roya Ayazi

Setting the scene and general overview by Mathieu Bataille, European Space Policy Institute (ESPI)

ESA Space and Security Capability Developments, by Florent MAZURELLE, European Space Agency (ESA)

Presentation by Lucie LACHKAR, European Defence Agency (EDA)

Short presentation and viewpoints by regional cluster representatives and other stakeholders: TBC

EUSpace4Ukraine, short intervention by Vasileios Kalogirou

Closing
